# CURRICULUM VITAE

# LOUISE WILSHIN

**VISUAL ARTIST - mark-making and material processes**

***'le geste qui crée la beauté'***

*A shift in perception – a change in scale. The monumentality of architecture in juxtaposition to the intricate fragility of a single line. I am in love with the tangible, the malleable, and the immeasurable possibilities of material dialogue. A journey through the arts is my desire, seeking inspiration from the abundance of our shared heritage.*
*I have practised art throughout my life, experimenting with diverse media. My work is driven by curiosity, the act of mark-making, and the interplay of line, texture, and space.*
